## FLAME Pette

### Fully Autoclavable Mechanical Pipette

The GVS new generation fully autoclavable mechanical pipette has the best ergonomic design and ultralight weight. It has been designed keeping in mind the human form and human factors to offer smooth and effortless ergonomic pipetting experience.

It is UV sterilisable and resistant to strong chemical corrosion. In addition, the volume lock helps to protect from volume changing accidentally , and to achieve reliable pipetting of smallest volume of liquids.

# LIQUID HANDLING

## Specifications

Single-Channel adjustable volume pipettes (12 Models, covering 0.1 µL ~ 10mL.)

Volume Range	Increment	Test Volume	Systematic Error		Random Error

## GVS 6/8/12 Channels

### Variable Spacing Electronic Pipette

#### Application:

The newly launched Variable Pitch Pipettes are available in 3 models of 6, 8 and 12 channels, covering all positions from 4.5mm to 19mm, making it easy to switch between different sizes of vessels, reducing the workload, saving time and greatly improving the reproducibility of experimental results.

- Use a tube rack
- Rearrange the orifice plates
- Gel loading
- Blood analysis
- Cell plating
- Cell culture

#### Six-channels Adjustable Spacing Pipette

Product Code	Range	Max capacity	Spacing	384 well plate (Spacing 4.5mm)	96 well plates (Spacing 9mm)	48 well plate (Spacing 13mm)	24 well plate (Spacing 19mm)	12 well plate (Spacing 26mm)
FLPA612A	0.5-12.5μl	13μl						
FLPA650A	2-50μl	50.5μl						
FLPA6110A	5-110μl	115μl	9-19mm		√		√	
FLPA6300A	10-300μl	320μl						
FLPA61200A	50-1200μl	1250μl					√	√

#### Eight-channels Adjustable Spacing Pipette

Product Code	Range	Max capacity	Spacing	384 well plate (Spacing 4.5mm)	96 well plates (Spacing 9mm)	48 well plate (Spacing 13mm)	24 well plate (Spacing 19mm)	12 well plate (Spacing 26mm)
FLPA812A	0.5-12.5μl	13μl						
FLPA850A	2-50μl	50.5μl						
FLPA8110A	5-110μl	115μl	9-19mm		√		√	
FLPA8300A	10-300μl	320μl						
FLPA81200A	50-1200μl	1250μl						
FLPA812AA	0.5-12.5μl	13μl						
FLPA850AA	2-50μl	50.5μl	4.5-14mm	√	√		√	
FLPA8110AA	5-110μl	115μl						

#### Twelve-channels Adjustable Spacing Pipette

Product Code	Range	Max capacity	Spacing	384 well plate (Spacing 4.5mm)	96 well plates (Spacing 9mm)	48 well plate (Spacing 13mm)	24 well plate (Spacing 19mm)	12 well plate (Spacing 26mm)
FLPA1212A	0.5-12.5μl	13μl						
FLPA1250A	2-50μl	50.5μl	4.5-9mm	√	√			
FLPA12110A	5-110μl	115μl						

# LIQUID HANDLING

## Brief introduction for GVS Electronic Pipette

The distance between the adjustable sucker and the sucker is 4.5-26mm, suitable for microplate, centrifuge tube, centrifuge tube rack and gel loading

# **FLAME Filler**

# LIQUID HANDLING

## FLAME Filler

Ergonomic fast pipetting solution with accurate speed control

### Features

- Intuitive and convenient with 6 speed levels
- Lightweight pipette filler compatible with glass or plastic serological pipettes (0.1 -100 mL)
- Ergonomic design for fatigue-free and effective streamlined pipetting
- LCD screen displays battery status and pipetting speed
- Quiet and powerful motor and pump fills 25 mL pipette in less than 5 seconds
- Long-lasting lithium-ion battery

### Specifications

Aspiration Speed	25mL<5s (6 Level)
Dispensing Speed	Motor/Gravity
Battery	Replaceable lithium battery
Battery Service Life	Over 12 hours of intermittent use
Charging Time	4-5 Hours
Pipette Types	Glass or Plastic Pipette (0.1-100mL), Pasteur Pipettes
Filter	0.45µm Hydrophobic
Weight	208g

# Pipette Controller

## Pipette Controller

- Adjustable aspirate liquid and dispense liquid volume.**

Adjustable pipetting volume. No need to staring at the liquid surface.

Meet your need within a simple touch.

- Light pressing, without pressing switch**

Regular button pressing strength of a normal auxiliary liquid suction device is 1000g.

Long-time pressing will make fingers tiring. This pipette controller is only 110g.

A simple light touch will be enough for imbibition, pipetting, dispense, and mix.

- A kind of pipette which can incline to do imbibition**

and drainage while without influencing the precision

Pipette can incline to do imbibition and drainage, while no damage will be done to its precision. Different with regular suction device which needs vertical liquid pipette, but complete imbibition, drainage, and separation according to scales.

- Operating space is reduced 50%**

To the unreasonable product structure caused by the narrow space of biological safety cabinet and the U-shape design, AE-MP10 pipette controller uses V-shape structure which makes the gravity center of the liquid pipette closer to user's hand and effectively lower the height of spreading elbow when doing liquid relief and reduces user's tiring level. Adjustable liquid pipette can meet various requirements of different experiments and coordinate with laboratory technicians' height to best condition.

- 4 modes, precise pipetting**

Includes free mode, manual mode, liquid distribution mode, and mixed-blowing mode. This the first pipette controller which can set status of liquid imbibition and liquid separation.

- Structure renovation. The pipette controller with no returning liquid.**

With a better structure design comparing to regular pipette tube and auxiliary liquid suction device, motor control of high precision, and compressor structure of accurate positioning, the controller does not have any possibility of returning liquid.

### Ordering Information

Product Code	Description
FLPAMP10A	Pipette Controller Volumn Range: 10ml

# Pipette Tips

## Pipette Tips

Automated pipette tips are compatible with a variety of automated pipetting workstations and automated sampling systems. They are used to distribute and transfer liquids to help complete high-throughput operation of biological samples. Universal pipette tips are made with high precision molds. With excellent processing technology and good pipetting performance, they are adapted to major brands such as DragonLab, Gilson, Eppendorf, ThermoFisher, etc.

## FLAMETIP Pipette Micro Filter Tips

### Description

Natural, with filter, sterilized in rack

### Purpose

Use for liquid transfer, zero retention filter.

### Materials

Tips: PP (Polypropylene)

Color: Natural

Rack box: PP (Polypropylene)

### Features

- ◆ FLAMETIP are manufactured from super clear high quality Polypropylene
- ◆ The surfaces of the tips are produced through a special process, this process makes the tip inner surface become super hydrophobic
- ◆ Preferred accessories for most brand micropipettor
- ◆ Tips with PP filter are also available
- ◆ Packaged in re-sealable plastic bags or extra-rigid autoclavable racks
- ◆ Every rack or case is printed with lot No. for quality traceability
- ◆ Non-Pyrogenic and validated per FDA guidelines on LAL testing for medical devices and company guidelines. The acceptance level for product is less than 0.5 EU/ml
- ◆ DNase/RNase-free
- ◆ Sterilized by gamma irradiation SAL 10-6(1S011137)
- ◆ Shelf life: 3 years after month of production
- ◆ Manufactured in a Class 100,000 cleanroom environment
- ◆ Manufactured under ISO13485:2016 and ISO9001:2015 quality management system
- ◆ This product has been tested and is free of any detectable Nucleic Acid.
- ◆ All material are certified metal-free which compliance with US Pharmacopoeia guidelines.
- ◆ This product has been tested and is free of ATP

# Serological Pipettes

## Serological Pipettes, Plastica

Designed for quantitatively transferring and dispensing exact volumes of liquid.

- Biologically inert PS, disposable
- Easy-to-read graduation, color-coded by size for identification
- Sterile and non-sterile are available

# **FLAME Spin**

# LIQUID HANDLING

## FLAME Spin

High Speed Micro Centrifuge

### Application

This centrifuges is ideal for quick spins,microfiltration of samples, cell separations and many other routine laboratory procedures.

### Features

- ◆ Max.Speed 1000 rpm (7490xg);
- ◆ OLED display, may switch speed and time;
- ◆ DC motor drive, smooth and quiet operation;
- ◆ Safe, durable and robust rotor with clamp locking design, easy to operate;
- ◆ Wide voltage technology: the speed is not affected by voltage fluctuations, high speed accuracy;
- ◆ Compatible with 0.5/1.5/2mL×12 tubes+4×PCR8 strips, 0.2 mL×44 PCR tubes;
- ◆ Screen buttons can adjust the start/stop of the motor, supports both soft braking and instant stop modes;
- ◆ Simple appearance and structure, only weight 1.5 Kg

## FLPHSMC02

0.2 mL rotor adapter  
Used with FA12-2P rotor  
12 pcs/pk

## FLPHSMC05

0.5 mL rotor adapter  
Used with FA12-2P rotor  
12pcs/pk

### Specifications

Speed Range	2000-10000 rpm, increment: 1000 rpm
Max.RCF	6708 xg. 1.5/2mL; 6596-7490 x g - PCR8 strips;
Rotor Capacity	0.2mLx44 PCR tubes 0.5/1.5/2mLx12+ 0.2mL PCR 8 stripsx4
Run Time	10s - 20min
Display	OLED
Acceleration/Deceleration	1↑/2↓
Driving Motor	DC motor
Power	AC 100 -240V/50Hz/60Hz 40W
Noise Level	<58dB
Dimension (D x W x H)	210 × 180 × 130 mm
Weight	1.5 kg
